Outlook

Q3 2019 has been a thin quarter for IPOs with issuance amounting to €3.8bn. This is marginally ahead of the same quarter last year, due primarily to the IPOs of TeamViewer at €2.0bn in Germany and EQT Partners at €1.2bn in Stockholm. However, volumes have been low, even taking account of the fact that Q3 bridges the summer break in July and August, with 16 IPOs in the period compared to 33 in Q3 2018. It was a revealing insight that the third largest IPO in Europe was JPMorgan Global Core Real Assets at €169m.

Looking forward, whilst there are several International IPOs in process for the London market, there have been few UK domestic IPOs as companies are generally sitting things out, waiting for Brexit and global trade uncertainty to resolve.

About IPO Watch Europe

Executing a successful IPO is typically the culmination of a complex process, whatever market you list on. From strategy, accounting, reporting, financial systems, governance, adviser selection, marketing process, media and investor relations, to treasury and financial risk management, legal, tax, HR, technology – every piece of the puzzle must be in place, and connected before you proceed.

Planning and good preparation are crucial to a successful IPO, regardless of the market or stock exchange. PwC's dedicated team of capital markets professionals are here to help and make the task at hand an easier experience for you. We have deep experience and knowledge of the rules and regulations governing all major capital markets—and a successful history of working on both international and domestic IPOs.

About IPO Watch Europe

IPO Watch Europe surveys all new primary market equity IPOs on Europe's principal stock markets and market segments (including exchanges in Austria, Belgium, Bulgaria, Croatia, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, the Netherlands, Norway, Poland, Portugal, Romania, Serbia, Spain, Sweden, Switzerland, Turkey and the UK) on a quarterly basis. Movements between markets on the same exchange are excluded.

The data in this report is based on data extracted from Dealogic and includes greenshoe (if exercised). Only transactions with a minimum of \$5 million money raised have been included. The data excludes PIPOs and transactions on Over-The-Counter exchanges. In case IPOs take place on two or more exchanges, the full amount of money raised is attributed to all exchanges. Industry classification is based on the FTSE Russell Industry Classification Benchmark (ICB).

This survey was conducted between 1 January and 30 September 2019 based on IPO pricing date. All market data is sourced from Dealogic and has not been independently verified by PricewaterhouseCoopers LLP.

Basis of preparation for Global IPO Watch

Global IPO Watch analyses IPO and FO trends on a quarterly basis, both at a global and regional level. It is based on data extracted from Dealogic, whereby only transactions with a minimum of \$5 million money raised have been included. Transaction proceeds include the over allotment option (if exercised). The data excludes PIPOs and transactions on Over-The-Counter exchanges. In case IPOs or FOs take place on two or more exchanges, the full amount of money raised is attributed to all exchanges. If a transaction is executed in two or more regions, the money raised is also attributed to all regions. Industry classification is based on the FTSE Russell Industry Classification Benchmark. Index performance is based on pricing data extracted from Bloomberg.
