

2007 Terrorism Threat Map

We combine insurance with risk management to provide an innovative answer to the growing challenge of terrorism. Our risk management is based on an unrivalled database on terrorism insurance and the experience of our team of counter-terrorism professionals.

Our risk management service models the impact of possible terrorist events on your organisation. Our consultants measure all aspects of your business from a counter-terrorism point of view, quantifying your potential financial liabilities and modes of possible protection.

Aon is a world leader in terrorism solutions. We have direct experience of protecting against terrorism. Our brokers have many years' experience of placing this class of insurance and our consultants include former government security agency, military and private sector analysis staff.
